

He is now Cured, and He Thanks Gcd and P. P. P., Lippman's Great Remedy, For It.

Mr. George Briggs, of Moore, Okla., suffered almost indescribable torment for three long years. Neuralgia held him captive. The right side of his face was so badly affected that the slightest touch would cause the unfortunate he could open his mouth just wide enough to be fed with liquid nourishment, and in this manner life was sustained. Read the following extract from his letter: "Truth is stranger than Fiction."

NEURALGIA, CATARRH AND RHEUMA-TISM COMPLETELY CURED.

George Briggs, of Moore, Oklahoma, writes that P. P. P., Lippman's Great Remedy, cured him of catarrh, facial neuralgia and rheumatism, after three years of intense suffering. The pain lay in his cheek bone and temple, down the right side of his face, along his upper lip, and from the slightest touch he suffered agonies for weeks at a time. Could only open his mouth wide enough to admit a teaspoon, and any acid in his food would put him in torture. He had a consultation of the best physi-

cians in Texas, but all to no purpose. Catarrh and rheumatism were also causing him much trouble, until he tried P. P. P. He says he is well and will swear that there are no cases of neuralgia, catarrh and rheumatism, no matter how chronic or how old the cases are, that P. P. will not make a total cure of.

Mr. Briggs winds up his testimony by saving he thanks God and our medicine, P. P. P., Lippman's Great Remedy, for the great cure.

Kidney troubles, if neglected, bring about serious and painful and very often fatal results. P. P. P. removes the irregularities, and cures the diseased parts.

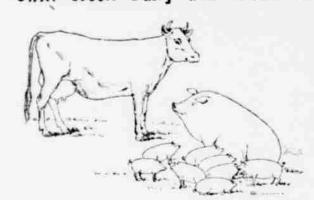

Dyspepsia and indigestion, skin and blood diseases, can be speedily removed by P. P. P., Lippman's Great Remedy. Ladies, take P. P. P. and rid your face of pimples, blotches, freckles, yellow or muddy skin, wrinkles and vulgar redness.

Again The Observer and the others said to themselves, "we should say nothing, if not good, concerning the dead:" and it is barely a week since a correspondent described the ex-president as leaning against a freight car on the track at Princeton Junction, unnoticed. The fact, inspired a New York Journal (the Sun we believe) to describe him as simply " bore." The Sun and all the rest of u were badly, mistaken. The irrepressible "bore" turns up again in his old character at the Reform Club dinner in New York on Saturday. What is the portent of his appearance there and of his astounding speech is graphically told by Henry Watterson, who, after suffering almost total eclipse, shines forth again with the brilliancy we used to know and admire.-Fayetteville Observer.

Almost every day the daily papers an nounce one or more pardons by the gov ernor, and in almost every instance the pardon is asked for by the trial judge or the solicitor or other officers of the court, and not infrequently by all these. Any man of intelligence, who believes that crime should be punished, must admit that this is a deplorable situation, and one which, if suffered to go unchecked, will ultimately lead to greater evils There are circumstances under which pardons should be granted of course, but the reckless and wholesale manner in which the pardoning power has been exercised in North Carolina recently is utterly indefensible on any ground. Miscarriages of justice in the courts are becoming more and more frequent, and The railroad eating house at Balsam, on when a known criminal escapes conviction through the law's delay or a technicality, or receives less punishment than he deserves, there is no redress for an outraged people. They must submit. Therefore, when one is convicted be should, in nearly every instance, receive the punishment meted out to him, and judges and solicitors and other officers of the court should be stopped from asking the governor to set aside the court's findings. It is a cause for wonder and a high tribute to the civilization of our people, in view of the frequent miscarriages of justice in this state, the Judge Lynch does not hold court more frequently The people should arouse themselves and take note of these judges and solicitors and other officials who use their influence to secure the pardons of criminals-pardons which are not deserved-and when the time comes for these officials to again ask preferment at the hands of the electorate they should be dealt with accordingly.-Statesville Landmark.

Why think of it! Lee "keeping out of range of the enemy's fire!" The shock to the southern mind will not allow it to do more than state such a thought. Then who can be brought to the edge of the thought that D. H. Hill was a man of fear? Possibly if the poll of the living confederate veterans were taken as to which general was least conscious of fear the result would give the name of D. H. Hill. Really, it has been said by old North Carolina veterans that D. H. Hill did not deserve credit for being brave, because he actually was born without knowledge of fear. And this brings us to the D. H. Hill-Toombs incident, mentioned in the story which forms the basis of these remarks. Under the present circumstances it does seem not only in taste, but almost obligatory, to mention a conversation between the late Jubal A. Early and the late D. H. Hill, of which the writer has a distinct recollection, almost to the word. The two old generals were sitting vis-a-vis in the Eighties in front of a comfortable fire one winter night, in lies at his home on East Davie street the best of humor and the best of friends, as all really brave men are. The conversation had drifted, with a softly glowing Davie street. Among his congregation mellifluoud flow meandering aimlessly but deliciously in and out among the battle scenes of the war. And after a moment's lull, "Old Jubal" (we use this soubriquet respectfully), remarked jocularly: you wouldn't fight him because you were an elder in the church." Then came a good laugh, after which General Hill said he had ordered Toombs back adding, "Coward that you are!" These exact words were used, and were the cause of the challenge to Hill. Then the old general said that he replied to Toombs, telling him that "there will soon be a battle, in which case if you, by your action, disprove the charge made by me, I will retract what I said; if not the words will have to stand." Inasmuch as this incldent was referred to, this version from the lips of General Hill is due.-Raleigh News and Observer.

in Thessaly, Larissa, April 27.-The correspondent of the Associated Press with the Turkish army here never saw such perfect discipline as when the victopeace was not disturbed in a single quarter of the town. As an instance of the strictness of the orders against pillage, the correspondent has just seen a Turkish soldier who took a shirt from an abandoned, half clothed store, seized by a patrol and arrested. Several cafes are already doing business. Practically the whole Greek population fled from the town. One of the few persons who remained informed the correspondent that there was a continual exodus of volunteers remained who, the moment the regular troops had gone, began pillaging the stores and also liberated the criminals from the jail. The released prisoners joined in the looting and the volunteers afterward began to shoot the Mussulmans, who throughout the preceding week had been maltreated by the Greeks whenever they appeared on the streets.

It is stated here that before the Greeks fled Prince Constantine, the Greek commander-in-chief, begged them to remain and face the enemy; but they refused and a regular "suave qui peut" ensued. The Greek soldiers actually jeered at the crown prince as they refused to face the enemy again. The Greek soldiers are furious at the Ethnike Hetairia, the Greek National League. They seized all the members of that organization they could find saying: "It is you who have brought all this misfortune on us."

After the conference a reporter of the Associated Press had an interview with M. Stouloudis, one of the opposition leaders. He said the leaders of the opposition had impressed the king with the fact that it was his first duty to organize the Greek forces. To this the king had assented. The leaders also pointed out that a new ministry must be a product of a vote taken in the legislative assembly.

The newspaper organ of M.
